

Dear Michael,

I am writing to thank you for your trusting & competent services that went beyond the call of duty but answered my prayers, coming to my home, not once but twice was so ~~kind~~ helpful. You treated me with such kind respect as if you truly cared about me.

Watching my husband leave this world for few days is

heart breaking enough. But when I found out I needed to return a couple days later to identify his body, was simply too much for anyone to deal with.

You listened to my grief, and took care of the problem by coming out to my home with the picture for me to sign. I know I'm at least half an hour's drive but you allowed me to lean on you. You took care of my need for a second set of wills.

You truly were there, for me. (2)

I had no family to help me
for the first few days - Idaho
& Texas & Utah are a bit far
away. You allowed me to
keep my dignity as well as lose
my dignity with no criticism.

Even if you were "just doing your job"
- few have the solid instincts,
skills, fairness & professional
compassion that define you.
You respected my needs, wishes,
financial situation with such
grace & skill. I can't thank
you enough.

Sincerely,
Lynne Porges
