“*Brianna and I love you and miss you charlie. Thank you so much for bringing Brianna and I together! If it wasn't for you then I would never have met my soulmate. Landon said he is going to miss his “charcar” a lot and he's sad he will never get to talk to you again about Pokémon. Thank you for always being a great guy and thank you for always being there for Brianna. You're the best and we will always love and miss you. Rest easy my friend*
