“ I remember working right across the hall from Jack when I taught Kindergarten. Our kindergarten students would be invited to his classroom to hear a Clifford story and then his students would help my students make a Clifford puppet. I remember all the laughter in our hallway whenever Jack was around. Staying in touch on facebook gave me the opportunity to see his family grow and change, and to see his grandchildren grow up right before my eyes. I know that Denise, his girls, and his grandchildren will miss him, but he also made many great friends over the years who will miss him always. We love you so much Jack. Please watch over us from heaven.

Love,
