I am so very sorry for the loss of a beautiful,kind lady and one of the sweetest people that I ever meet and worked with . I retired in September and didn't get to see her much doing covid .I was so sad when I heard about her illness. Last time I saw her was in the food lion a few weeks before her passing and she told that she had talked to hospice and I really didn't know what to say she was so calm about it but I wanted to cry but didn't . I wanted to do something for her so bad but there was nothing I could do but hug her and tell how sorry I was for her. She will never be forgotten. Prayers and hugs for the whole family and friends. RIP Patti

“ I am just so very sorry. I am one of the lucky ones who got to work side by side with Patti in both the Winchester and Warren ERs! She was such a beautiful, funny, caring nurse. We all had so much fun working together and will miss her terribly. She loved her family more than anything and was so proud of her kids! Her beautiful smile will never be forgotten. Thank you for sharing her with us.

“ As we all grieved the loss of our dear colleague and friend. I want to say she lived well, loved unconditionally and gave her best in everything she did. She was giving and she had heart of thankfulness, a positive attitude and she has always been gracious. She had a contagious smile , when she smiles at you at you could not help but do the same .Our hearts has been broken into many pieces ,but think that each tiny pieces represents the love , joy , her caring attitude and the knowledge that she has touch lives that are forever change. She has left us with these character traits to emulate in remembrance her. She was a shining light for all of us and her family but she was called home early so we must all try and imitate those virtues she has left us with. We should also be comforted by the knowledge that she is at rest and experiencing no more pain

This sums it up

“I shall pass this way but once; any good that I can do or any kindness I can show to any human being; let me do it now. Let me not defer nor neglect it, for I shall not pass this way again.”
