“ *Visiting with Eileen was always an experience. Her humor and joking ways were funny and uplifting. Once Covid crept into our lives, it was only by phone that we could visit. Eileen had the innate ability to bring joy into even the most dreary situations. It was difficult to know that she had become so seriously ill, so quickly. Yet, even in those moments of despair, a smile would come through. Then a chuckle. Then the laughter! I love you, Eileen.*
