“ *I remember Yuki very well as she lived in Mountain Falls, Va for several years when I was but a young lad. I had no idea she lived to be this age and truthfully never gave much thought to her until now after reading her obituary. I remember her husband Ben very well and he was related to the Sine Family that lived near us. His relatives George and Clarence and possibly father Ben all lived near us in that small community who I knew very well as they often helped us in the cutting of pulp wood and butchering season each year. I had met Yuki several times through out the years and remember seeing small children with her at times when they visited our home place. Yuki was probably the first Japanese person I ever met as a child. I have flown into the Yokota area of Japan several times during the Viet Nam war and got to know many fine folks from her native country. Thanks for sharing her obituary and I never knew she had so many grand children. I was know as Butch to those in the community at Mountain Falls.*
